

# 10<sup>th</sup> Lymph Clinic Day Wolfsberg

Innovation in diagnostic and therapy

April 25<sup>th</sup> – 26<sup>th</sup>, 2025 · Wolfsberg, Austria

## Save the date

# Innovation in diagnostic and therapy

Dear Sir or Madam,  
Dear Colleagues,

We are in times of great upheaval in healthcare, both in terms of politics and new scientific findings. This is challenging for all of us, both as participants and those affected.

The treatment of our patients requires continuous multidisciplinary exchange, to learn from each other and to examine innovations so those concerned may achieve an optimal therapeutic result and the best possible quality of life.

On the occasion of the anniversary – 10 years of the Lymph Clinic Day Wolfsburg – we want to focus on the newest approach, to examine innovations in research and in therapy options and discuss what this means for the treatment of our patients.

The focus of this congress is put on the level of development of the S3-guideline lymphoedema, the progress in the area of diagnosis, concepts and opportunities for patient oriented and -individual conservative and surgical therapy, as well as comorbidities.

We will also be discussing the integration of the S2k-guidelines for lipedema (lipohyperplasia dolorosa) as well as new technical aids in the area of diagnosis and therapy.

Innovation means to have visions, ideas and aims – not standing still and developing and discussing the best possible solutions together.

We cordially invite you to join us in Wolfsburg!

Kind regards,  
Prim. Dr. med. Christian Ure  
Conference Chair
